

MW72

Strap-on Ostomy Care Trainer

For hands-on training to acquire an array of ostomy care skills, through hybrid training on SP or in combination of full body manikin

FEATURES

- 1 | Simple and easy to handle
- 2 | Two types of stoma models, end stoma and loop stoma, and four sites to set stomas for a variety of training scenarios
- 3 | Thin material of the skin to simulate wrinkles that accompany patient's posture, while fitting naturally on the abdomen of the SP
- 4 | Anti-slippery surface of the skin and front side belt connectors to facilitate smooth preparation and training
Simulated feces for realistic training

SKILLS

- | Cleansing
- | Changing a pouch
- | Emptying a pouch
- | Respect to patients through simulation of a patient
